## Recommendation letter

Dear Sir/Madam,

I am writing this letter to recommend the services of PROCESS WELDING APS to you. During the past year, our company has been working with Dennis Olsen on numerous different kinds of projects. The company offers high quality services. We can say that we have always been satisfied by their work.

One of the projects that we worked on pointed out the concern for quality and attention to detail that the company has. For the first installation project that we worked together with PROCESS WELDING APS, the company provided their mechanical and welding specialists to assemble the hog processing equipment at the Clemens Food Group facility in the Coldwater, MI, USA. The pace, skills and efforts of the laborers were highly estimated by the main Customer. In addition, I would like to mention deep devotion of the mechanical crew to the high QHSE standards applied on the job site. In our opinion, it has been the working knowledge and the efficient organization of the company that resulted in such impressive results.

I would like to ask you to consider the PROCESS WELDING APS for the food processing needs of your company. I strongly recommend the services of the company and I am looking forward to working with the company again for future installation projects and not only.

Sincerely,

*Supervisor Frontmatic*

*Hemming Hele Jensen*
